

ORD. #25-26

**ORDINANCE TO REPEAL AND RECREATE
SEVERAL SECTIONS OF THE VILLAGE ZONING ORDINANCE (CHAPTER 420)
RELATED TO MULTI FAMILY AND MANUFACTURED/MOBIL HOME PARK RESIDENTIAL
ZONING DISTRICTS IN THE VILLAGE OF PLEASANT PRAIRIE, KENOSHA COUNTY,
WISCONSIN**

THE VILLAGE BOARD OF TRUSTEES OF THE VILLAGE OF PLEASANT PRAIRIE, KENOSHA COUNTY, WISCONSIN, DO HEREBY ORDAIN THAT THE FOLLOWING SECTIONS OF THE VILLAGE ZONING ORDINANCE ARE BEING REPEALED AND RECREATED AS FOLLOWS:

1. Section 420-114 related to the R-9, Multiple-Family Residential District is being repealed and recreated to read as follows:

420-114 R-9 Multiple-Family Residential District.

- A. Primary purpose and characteristics. The R-9 Multiple-Family Residential District is intended to provide for multiple-family residential development. No such district shall be established unless it is in compliance with the Village Comprehensive Plan, Neighborhood Plan and Conceptual Plan.
- B. Permitted uses/structures.
- (1) Principal uses/structures. Only one principal use/structure is allowed per property.
 - (a) One multiple-family building not to exceed four dwelling units per building, which shall include private garages attached to the building.
 - (b) Commercial communication structures per § 420-89.
 - (2) Accessory uses/structures.
 - (a) No more than a total of two of the following detached structures: private garages; gardening, tool, and storage sheds; or gazebos incidental to the residential use per § 420-86.
 - (b) Home occupations per Article VII.
 - (c) Driveways per Section 420-47.
 - (d) Fences per Article XI.
 - (e) Decks and porches per § 420-87.
 - (f) Residential communication structures per § 420-90.
 - (g) Solar energy system for individual users per § 420-88.2.
- C. Conditional uses. Conditional uses are those uses that require a special review and approval process because of their potential impact upon adjacent properties (see Article XVIII for procedures and additional standards and requirements).
- (1) Principal uses.
 - (a) Community living arrangements within a multiple-family building.
- D. Unclassified uses. Any use not specifically listed as a permitted principal use or conditional use shall be considered to be prohibited. It is recognized that it is neither possible nor practical to list all of the permitted accessory uses and structures that are compatible with those listed above in Subsection B, and therefore it is intended that said list of accessory uses and structures be only illustrative. Any individual aggrieved by a failure to list a permitted accessory use or structure in said subsection shall have the right to file a petition with the Village Zoning Administrator for determination. The Village Zoning Administrator, in making the determination, shall find that an accessory use or structure is

subordinate to the permitted principal use of a structure, land or water, is located on the same lot or parcel and serves a purpose customarily incidental to the permitted principal use in said district.

E. Lot area, frontage and width.

- (1) Lots shall have a minimum area of 43,560 square feet (one acre).
- (2) All lots shall have a minimum frontage of 200 feet unless located on a cul-de-sac or curve, in which case the lot frontage may be reduced to 100 feet, provided that there is at least 200 feet of width at the required building setback line.

F. Multi-family building design standards.

- (1) No building or parts of a building shall exceed 35 feet in height.
- (2) The units in the building shall meet the following requirements:
 - (a) Efficiency units shall have a minimum floor area of 400 square feet;
 - (b) One-bedroom units shall have a minimum floor area of 650 square feet;
 - (c) Two-bedroom units shall have a minimum floor area of 1,000 square feet; and
 - (d) Three-or-more-bedroom units shall have a minimum floor area of 1,200 square feet.
- (3) Placement of each building shall provide for proper drainage away from the foundation and shall accommodate drainage on and through the existing property by not negatively affecting the existing drainage patterns or the capabilities of draining the abutting properties.
- (4) The main roof of the building shall have a minimum roof pitch of 4:12, and the eaves on the main roof shall extend beyond the nearest vertical wall a minimum of one foot, or the roof pitch and/or eave length may be reduced as approved by the Village Zoning Administrator.
- (5) Permitted roof surface materials (including accessory garages and carports) include wood or metal shakes; asphalt, fiberglass, composition, metal or wood shingles; clay, concrete, slate, or metal tiles; standing seam metal roof; or other appropriate roofing material as approved by the Village Zoning Administrator.
- (6) Permitted exterior siding materials (including attached garages) include brick, stone, wood, cement board other appropriate siding material as approved by the Village Zoning Administrator. At a minimum, 50% of each wall surface, excluding windows, doors and garage doors, shall be constructed of brick or stone. The exterior siding materials shall extend to the top of the foundation and be within six inches above the final grade.
- (7) The front facade of the building shall be parallel to the adjacent public street (or, if the street is curved, parallel to a line connecting the points of intersection of the side lot lines with the street right-of-way line), unless the site is a minimum of five acres in area and the building is set back a minimum of 100 feet from all property lines, in which event the building can be appropriately oriented relative to other surrounding features; or with approval of the Zoning Administrator, if the site is subject to physical or legal limitations which prevent the building from being parallel to the public street; in which event care shall be taken to create a sense of harmony between the building and its surroundings.
- (8) At a minimum each dwelling unit shall include a one-car attached garage and shall not include more than a three-car attached garage wherein, each attached garage shall have a minimum depth of 21 feet and a maximum floor area of 500 square

feet. The attached garage shall not be rented separately from the residential unit. No overhead garage doors shall face directly toward any public right-of-way.

- (9) All exterior additions or alterations shall be constructed of the same or complementary colors and materials and in the same architectural style as the principal structure.
- (10) A minimum of 25% of the lot shall remain as open space.
- (11) All buildings with more than four living units shall be equipped with a fire suppression system as approved by the Village Fire & Rescue Department.

G. Setbacks, unless otherwise specified, for all structures.

- (1) Street setback: minimum of 65 feet from arterial streets or highways and a minimum of 40 feet from nonarterial streets or private roads.
- (2) Shore setback: 50 feet minimum adjacent to Lake Michigan, 35 feet minimum adjacent to all other navigable waterways.
- (3) Wetland setback: 25 feet minimum from any field delineated wetlands on the property.
- (4) Side setback: 20 feet minimum.
- (5) Rear setback: 30 feet minimum.

H. Authorized sanitary sewer system. See § 420-32 of this chapter.

I. Authorized water supply system. See § 420-33 of this chapter.

J. Hours for deliveries, or any other activities outside the principal building that might cause a disturbance to neighboring residential areas (e.g., outside loading or unloading, the arrival of deliveries, idling of delivery trucks, beeping of backing vehicles, and garbage pickup), except for snow removal: 7:00 a.m. to 10:00 p.m. maximum.

2. Section 420-115 related to the R-10, Multiple-Family Residential District is being repealed and recreated to read as follows:

420-115 R-10 Multiple-Family Residential District.

A. Primary purpose and characteristics. The R-10 Multiple-Family Residential District is intended to provide for multiple-family residential development. No such district shall be established unless it is in compliance with the Village Comprehensive Plan, Neighborhood Plan and Conceptual Plan.

B. Permitted uses/structures.

- (1) Principal uses/structures. Only one principal use/structure is allowed per property.
 - (a) One multiple-family building not to exceed eight units per building, which shall include private garages attached to the structure.
 - (b) Commercial communication structures per § 420-89.
- (2) Accessory uses/structures.
 - (a) No more than one of the following detached structures: private garages per § 420-86.
 - (b) No more than two of the following detached structures: gardening, tool, and storage sheds or gazebos incidental to the residential use per § 420-86.
 - (c) Home occupations per Article VII.

- (d) Driveways per § 420-47.
 - (e) Fences per Article XI.
 - (f) Decks and porches per § 420-87.
 - (g) Residential communication structures per § 420-90.
 - (h) Solar energy system for individual users per § 420-88.2.
- C. Conditional uses. Conditional uses are those uses that require a special review and approval process because of their potential impact upon adjacent properties (see Article XVIII for procedures and additional standards and requirements).
- (1) Principal uses.
 - (a) Community living arrangements within a multiple-family building.
- D. Unclassified uses. Any use not specifically listed as a permitted principal use or conditional use shall be considered to be prohibited. It is recognized that it is neither possible nor practical to list all of the permitted accessory uses and structures that are compatible with those listed above in Subsection B, and therefore it is intended that said list of accessory uses and structures be only illustrative. Any individual aggrieved by a failure to list a permitted accessory use or structure in said subsection shall have the right to file a petition with the Village Zoning Administrator for determination. The Village Zoning Administrator, in making the determination, shall find that an accessory use or structure is subordinate to the permitted principal use of a structure, land or water, is located on the same lot or parcel and serves a purpose customarily incidental to the permitted principal use in said district.
- E. Lot area, frontage and width.
- (1) Lots shall have a minimum area of 65,340 square feet (1.5 acres).
 - (2) All lots shall have a minimum frontage of 200 feet unless located on a cul-de-sac or curve, in which case the lot frontage may be reduced to 100 feet, provided that there is at least 200 feet of width at the required building setback line.
- F. Multi-family building design standards.
- (1) No building or parts of a building shall exceed 35 feet in height.
 - (2) The units in the building shall meet the following requirements:
 - (a) Efficiency units shall have a minimum floor area of 400 square feet;
 - (b) One-bedroom units shall have a minimum floor area of 650 square feet;
 - (c) Two-bedroom units shall have a minimum floor area of 1,000 square feet; and
 - (d) Three-or-more-bedroom units shall have a minimum floor area of 1,200 square feet.
 - (3) Placement of each building shall provide for proper drainage away from the foundation and shall accommodate drainage on and through the existing property by not negatively affecting the existing drainage patterns or the capabilities of draining the abutting properties.
 - (4) The main roof of the building shall have a minimum roof pitch of 4:12, and the eaves on the main roof shall extend beyond the nearest vertical wall a minimum of one foot, or the roof pitch and/or eave length may be reduced as approved by the Village Zoning Administrator.

- (5) Permitted roof surface materials (including accessory garages and carports) include wood or metal shakes; asphalt, fiberglass, composition, metal or wood shingles; clay, concrete, slate, or metal tiles; standing seam metal roof; or other appropriate roofing material as approved by the Village Zoning Administrator.
- (6) Permitted exterior siding materials (including attached garages) include brick, stone, wood, cement board or other appropriate siding material as approved by the Village Zoning Administrator. At a minimum, 50% of each wall surface, excluding windows, doors and garage doors, shall be constructed of brick or stone. The exterior siding shall extend to the top of the foundation and be within six inches above the final grade.
- (7) The front facade of the building shall be parallel to the adjacent public street (or, if the street is curved, parallel to a line connecting the points of intersection of the side lot lines with the street right-of-way line), unless the site is a minimum of five acres in area and the building is set back a minimum of 100 feet from all property lines, in which event the building can be appropriately oriented relative to other surrounding features; or with approval of the Zoning Administrator, if the site is subject to physical or legal limitations which prevent the building from being parallel to the public street; in which event care shall be taken to create a sense of harmony between the building and its surroundings.
- (8) At a minimum each dwelling unit shall include a one-car attached garage and shall not include more than a three-car attached garage wherein each attached garage shall have a minimum depth of 21 feet and a maximum floor area of 500 square feet. The attached garage shall not be rented separately from the residential unit. If underground parking is provided, each unit shall be provided with one standard parking space in lieu of an attached garage. No overhead garage doors shall face directly toward a public right-of-way.
- (9) All exterior additions or alterations shall be constructed of the same or complementary colors and materials and in the same architectural style as the principal structure.
- (10) A minimum of 25% of the lot shall remain as open space.
- (11) All buildings with more than four livings units shall be equipped with a fire suppression system as approved by the Village Fire & Rescue Department.

G. Setbacks, unless otherwise specified, for all structures.

- (1) Street setback: minimum of 65 feet from arterial streets or highways and a minimum of 40 feet from nonarterial streets or private roads.
- (2) Shore setback: 50 feet minimum adjacent to Lake Michigan, 35 feet minimum adjacent to all other navigable waterways.
- (3) Wetland setback: 25 feet minimum from any field delineated wetlands on the property.
- (4) Side setback: 25 feet minimum.
- (5) Rear setback: 50 feet minimum.

H. Authorized sanitary sewer system. See § 420-32 of this chapter.

I. Authorized water supply system. See § 420-33 of this chapter.

J. Hours for deliveries, or any other activities outside the principal building that might cause a disturbance to neighboring residential areas (e.g., outside loading or unloading, the arrival of deliveries, idling of delivery trucks, beeping of backing vehicles, and garbage pickup), except for snow removal: 7:00 a.m. to 10:00 p.m. maximum.

3. Section 420-116 related to the R-11, Multiple-Family Residential District is being repealed and recreated to read as follows:

420-116 R-11 Multiple-Family Residential District.

- A. Primary purpose and characteristics. The R-11 Multiple-Family Residential District is intended to provide for multiple-family residential development. No such district shall be established unless it is in compliance with the Village Comprehensive Plan, Neighborhood Plan and Conceptual Plan.
- B. Permitted uses/structures.
- (1) Principal uses/structures. Only one principal use/structure is allowed per property.
 - (a) One multifamily building not to exceed 24 units per building, which shall include private garages attached to the building.
 - (b) Commercial communication structures per § 420-89.
 - (2) Accessory uses/structures.
 - (a) No more than a total of three of the following detached structures: private garages per § 420-86.
 - (b) No more than a total of two of the following detached structures: gardening, tool, and storage sheds or gazebos incidental to the residential use per § 420-86.
 - (c) Home occupations per Article VII.
 - (d) Driveways per § 420-47.
 - (e) Fences per Article XI.
 - (f) Decks and porches per § 420-87.
 - (g) Residential communication structures per § 420-90.
 - (h) Solar energy system for individual users per § 420-88.2.
- C. Conditional uses. Conditional uses are those uses that require a special review and approval process because of their potential impact upon adjacent properties (see Article XVIII for procedures and additional standards and requirements).
- (1) Principal uses.
 - (a) Community living arrangements within a multiple-family building.
- D. Unclassified uses. Any use not specifically listed as a permitted principal use or conditional use shall be considered to be prohibited. It is recognized that it is neither possible nor practical to list all of the permitted accessory uses and structures that are compatible with those listed above in Subsection B, and therefore it is intended that said list of accessory uses and structures be only illustrative. Any individual aggrieved by a failure to list a permitted accessory use or structure in said subsection shall have the right to file a petition with the Village Zoning Administrator for determination. The Village Zoning Administrator, in making the determination, shall find that an accessory use or structure is subordinate to the permitted principal use of a structure, land or water, is located on the same lot or parcel and serves a purpose customarily incidental to the permitted principal use in said district.
- E. Lot area, frontage and width.
- (1) Lots shall have a minimum area of 108,900 square feet (2.5 acres).

- (2) All lots shall have a minimum frontage of 200 feet unless located on a cul-de-sac or curve, in which case the lot frontage may be reduced to 100 feet, provided that there is at least 200 feet of width at the required building setback line.

F. Multi-family building design standards.

- (1) No building or parts of a building shall exceed 35 feet in height.
- (2) The units in the building shall meet the following requirements:
 - (a) Efficiency units shall have a minimum floor area of 400 square feet;
 - (b) One-bedroom units shall have a minimum floor area of 650 square feet;
 - (c) Two-bedroom units shall have a minimum floor area of 1,000 square feet; and
 - (d) Three-or-more-bedroom units shall have a minimum floor area of 1,200 square feet.
- (3) Placement of each building shall provide for proper drainage away from the foundation and shall accommodate drainage on and through the existing property by not negatively affecting the existing drainage patterns or the capabilities of draining the abutting properties.
- (4) The main roof of the building shall have a minimum roof pitch of 4:12, and the eaves on the main roof shall extend beyond the nearest vertical wall a minimum of one foot, or the roof pitch and/or eave length may be reduced as approved by the Village Zoning Administrator.
- (5) Permitted roof surface materials (including accessory garages and carports) include wood or metal shakes; asphalt, fiberglass, composition, metal or wood shingles; clay, concrete, slate, or metal tiles; standing seam metal roof; or other appropriate roofing material as approved by the Village Zoning Administrator.
- (6) Permitted exterior siding materials (including attached garages) include brick, stone, wood, cement board or other appropriate siding material as approved by the Village Zoning Administrator. At a minimum, 50% of each wall surface, excluding windows, doors and garage doors, shall be constructed of brick or stone. The exterior siding materials shall extend to the top of the foundation and be within six inches above the final grade.
- (7) The front facade of the building shall be parallel to the adjacent public street (or, if the street is curved, parallel to a line connecting the points of intersection of the side lot lines with the street right-of-way line), unless the site is a minimum of five acres in area and the building is set back a minimum of 100 feet from all property lines, in which event the building can be appropriately oriented relative to other surrounding features; or with approval of the Zoning Administrator, if the site is subject to physical or legal limitations which prevent the building from being parallel to the public street; in which event care shall be taken to create a sense of harmony between the building and its surroundings.
- (8) At a minimum each dwelling unit shall include a one-car attached garage and shall not include more than a three-car attached garage wherein, each attached garage shall have a minimum depth of 21 feet and a maximum floor area of 500 square feet. The attached garage shall not be rented separately from the residential unit. If underground parking is provided, each unit shall be provided with one standard parking space in lieu of an attached garage. No overhead garage doors shall face directly toward a public right-of-way.

- (9) All exterior additions or alterations shall be constructed of the same or complementary colors and materials and in the same architectural style as the principal structure.
 - (10) A minimum of 25% of the lot shall remain as open space.
 - (11) All buildings with more than four livings units shall be equipped with a fire suppression system as approved by the Village Fire & Rescue Department.
- G. Setbacks, unless otherwise specified, for all structures.
- (1) Street setback: minimum of 65 feet from arterial streets or highways and a minimum of 40 feet from nonarterial streets or private roads.
 - (2) Shore setback: 50 feet minimum adjacent to Lake Michigan, 35 feet minimum adjacent to all other navigable waterways.
 - (3) Wetland setback: 25 feet minimum from any field delineated wetlands on the property.
 - (4) Side setback: 30 feet minimum.
 - (5) Rear setback: 50 feet minimum.
- H. Authorized sanitary sewer system. See § 420-32 of this chapter.
- I. Authorized water supply system. See § 420-33 of this chapter.
- J. Hours for deliveries, or any other activities outside the principal building that might cause a disturbance to neighboring residential areas (e.g., outside loading or unloading, the arrival of deliveries, idling of delivery trucks, beeping of backing vehicles, and garbage pickup), except for snow removal: 7:00 a.m. to 10:00 p.m. maximum.

4. Section 420-117 related to the R-12, Manufactured/Mobile Home Park Residential District is being repealed and recreated to read as follows:

420-117 R-12 Manufactured/Mobile Home Park Residential District.

- A. Purpose and characteristics. The R-12 Manufactured/Mobile Home Park Residential District is intended to provide lots for single family manufactured/mobile homes within a designated Manufactured/Mobile Home Park. Any new District shall not be created unless it is in compliance with the Comprehensive Plan, Neighborhood Plan and Conceptual Plan.
- B. Permitted uses/structures.
- (1) Principal uses/structures. Only one principal use/structure is allowed per lot within a manufactured/mobile home park.
 - (a) One individual manufactured/mobile home on a lot in a manufactured/mobile home park, which may include a private garage or carport attached to the home.
 - (b) Commercial communication structures (per § 420-89).
 - (c) One park management office.
 - (2) Accessory uses/structures.
 - (a) The following accessory uses/structures are only allowed on a lot in a manufacture/mobile home park after the manufactured/mobile home is located on the same lot.
 - (1) No more than one detached gardening, tool or storage shed or gazebo incidental to the residential use on a manufactured/mobile

home lot, provided that the storage building does not exceed 150 square feet and subject to the requirements in § 420-86 of this chapter.

- (2) Driveways (per § 420-46).
- (3) Swimming pools/hot tubs (per Article XII).
- (4) Decks (per § 420-87).
- (5) Solar energy system for individual users (per § 420-88.2).
- (6) Residential communication structures (per § 420-90).

- (b) Fences (per Article XI).
- (c) No more than one Park maintenance buildings provided that the building does not exceed 1,000 square feet (per § 420-86).
- (d) Recreational facilities such as swimming pools, pedestrian trails and tot lots to serve the units within the manufactured/mobile home park in locations as approved by the Zoning Administrator.
- (e) Bus shelter may be allowed provided that it is located a minimum of five feet from any property line adjacent to a public street or back of curb of a private street; a minimum of five feet from any side or rear exterior boundary of the park; a minimum of 10 feet from any existing building and shall not be located within a vision triangle. The bus shelter shall not exceed 50 square feet and 15 feet in height. The location, design and materials of said bus shelter is subject to the approval from the Village Zoning Administrator.

C. Conditional uses. Conditional uses are those uses that require a special review and approval process because of their potential impact upon adjacent properties (see Article XVIII). There are no conditional uses in this District.

D. Unclassified uses. Any use not specifically listed as a permitted principal use or conditional use shall be considered to be prohibited. It is recognized that it is neither possible nor practical to list all of the permitted accessory uses and structures that are compatible with those listed above in Subsection B, and therefore it is intended that said list of accessory uses and structures be only illustrative. Any individual aggrieved by a failure to list a permitted accessory use or structure in said subsection shall have the right to file a petition with the Village Zoning Administrator for determination. The Village Zoning Administrator, in making the determination, shall find that an accessory use or structure is subordinate to the permitted principal use of a structure, land or water, is located on the same lot or parcel and serves a purpose customarily incidental to the permitted principal use in said district.

E. Design Standards for a Manufactured/Mobile Home Park created after January 1, 1999.

- (1) Park size: 10 acre minimum with a minimum frontage of 450 feet on a public street.
- (2) Lot area of each individual lot in a park: 7,700 square feet minimum.
- (3) Lot frontage for each individual lot in the park on a public or private street:
 - (a) If the short side of the manufactured home/mobile home is parallel to the roadway, then the lot shall not be less than 70 feet in frontage unless located on a cul-de-sac or curve, in which case the lot frontage may be reduced to 45 feet of frontage, provided that there is at least 70 feet of width at the required building setback line and provided that the lot is at least 110 feet deep.

- (b) If the long side of the manufactured home/mobile home is parallel to the roadway, the lot shall not be less than 95 feet in frontage unless located on a cul-de-sac or curve, in which case the lot frontage may be reduced to 60 feet of frontage, provided that there is at least 95 feet of width at the required building setback line and provided that the lot is at least 85 feet deep.
 - (4) Open Space: 20% minimum excluding any individual lot to be used for open space and recreational uses for park residents.
 - (5) The Park shall be completely enclosed, except for permitted entrances and exits, with a 40 landscaped buffer area between individual lots and adjacent properties with a permanent evergreen planting, the individual trees to be of such number and so arranged that within 10 years they will have formed a dense screen. Such permanent planting shall be grown or maintained to a height of not less than 10 feet.
 - (6) Parking, access and traffic requirements pursuant to Article VIII of this chapter.
 - (7) Compliance with Article IXA of this chapter related to Residential Development Plan approval.
 - (8) Park Management Office is required. The size and design shall be approved by the Zoning Administrator. All setbacks per section 420-117 G below shall apply.
 - (9) Parks shall provide lot markers at the corners of each manufactured/mobile home lot. All lot markers shall be clearly marked on the ground by permanent flush stakes, markers or other suitable permanent means.
 - (10) Compliance with Chapter 221, Manufactured/Mobile Homes, of the Village Code.
- F. Manufactured/mobile home standards.
- (1) No building or parts of a building shall exceed 25 feet in height.
 - (2) The minimum floor area shall be 600 square feet, excluding the garage, decks, and porches.
 - (3) The unit shall be set on a temporary foundation.
 - (4) Vented skirting of flame-resistant material for a manufactured/mobile home is required. Areas enclosed by such skirting shall be maintained so as not to provide a harborage for rodents or create a fire hazard. The skirting material shall be of the same material and style as the exterior siding and shall extend to the ground.
- G. Setbacks, unless otherwise specified, for all structures.
- (1) Street setback: minimum of 65 feet from arterial streets or highways and a minimum of 30 feet from nonarterial streets or private roads, except as provided for in § 420-139B(2)(b).
 - (2) Shore setback: 50 feet minimum adjacent to Lake Michigan, 35 feet minimum adjacent to all other navigable waterways.
 - (3) Wetland setback: 25 feet minimum from any field delineated wetlands with the Manufacture/Mobile Home Park.
 - (4) Side setback: not less than eight feet to the side lot line of the manufactured/mobile home lot line; except as provided for in § 420-139B(7).
 - (5) Rear setback: 20 feet minimum from the manufactured/mobile home lot line.
- H. Authorized sanitary sewer system. See § 420-32 of this chapter.
- I. Authorized water supply system. See § 420-33 of this chapter.

Adopted this 11th day of August 2025.
